The Lawyers are considered to be the center of the administration of justice. Lawyers are the one who are related to the parties, they listen to the party and collect all the relevant legal materials relating to the case and argue the case in court, thus helping the Judge to arrive at the correct and fair judgment.

In the modern world, everything is dynamic, whether it is the technological advancements or the social conditions; all the factors are constantly changing and evolving for good. Therefore, it is impossible that the way people work remains the same. Almost all the professions are diversifying and new profession cropping up, opening up new opportunities for today's youngsters. Among these is one of the oldest professions known to mankind, the legal profession. It is also one of the most important professions for the administration of justice and to maintain a balance between the legislature and the common people. It has been emphasized many times that, "A well-organized system of judicial administration proposes a properly equipped and proficient Bar." This profession, like all others, has not remained unaffected from the social, economic and political changes across the world. In India, the changes in the Legal Education System have revolutionized the Legal Profession and will have far reaching consequences. She said that today young lawyers are attracted more towards criminal side cases. They are not concentrating on civil matters. But these cases call for more detail study and time. I Session

In the 1st Session Prof K.S Suresh CEO JSS Law College, Mysuru was the resource person. He spoke on “Opportunities in Legal Profession”. The resource person pointed out that, Law is an expansive sector with various opportunities. Depending on your interests and skills, you can pursue a unique career in this industry; one of the most career options in law is legal advisor. As a legal advisor, you’d be responsible for advising your client on legal issues, prevent litigation, and take care of contractual and regulatory problems.

Legal advisors have to negotiate with the other party to resolve disputes and analyze contracts for their organization. Organizations rely on legal advisors to prevent legal disputes. Legal advisors usually offer advice to the upper management of a company and work with them to resolve any legal disputes that arise. As you can see, the legal sector offers various career opportunities. You should pick one of these careers according to your interests and aspirations. For example, if you're a creative person who loves to write then pursuing a career in legal journalism would be best for you. On the other hand, if you have strong interpersonal and oration skills, you can become a civil lawyer. With so much variety available in the law sector, it can get quite daunting to choose one particular stream. Be sure to consider all the factors while making your selection so you can make an informed decision regarding your career.

Concluding the session Prof M C Rajesh conveyed vote of thanks to the guest and gathering.

II Session

On the second day of three days orientation programme, Dr. Raveesh, Professor & HOD, Dept. of Psychiatry K.R. Hospital, Mysuru spoke on the topic 'Goal For Life'. Interacting with the students he said that happiness begins from the moment you do something for others. Those who consistently help others, are happy, and do not come across any obstacles in their lives. Research indicates that they are less stressed and experience improved mental health. The purpose of life is to serve others. However, when doing so, you should not expect something in return; your intention should be to lessen other people's misery. "Service to others should be sincere and done from the heart; only then it is fruitful." Do any trees eat their own fruit? No. This teaches us that human beings should not only use their mind, body

and speech for themselves, but also to serve others. When you do this, nature in turn will reward you. Your constant inner intent should be towards helping others. If you are unable to do so for any reason, you can also make sure that you do not hurt anyone. This is an indirect way to help those around you.

Resource person gave many comprehensive explanations for several reliable methods to fulfill the purpose of life of serving and helping others. However, eternal happiness can only be attained through Self-Realization.

Concluding the session Dr. Boregowda conveyed vote of thanks to the guest and gathering.

III Session

In the third session Dr. Rajgopal Rtd. Professor of English was the resource person. He spoke about the concept of “English Communication Skill”. English is the language of our international communication in all areas, such as politics, science, media or art and it is often the language of entertainment as well as socializing. Having a good command of English helps us to have more opportunities in life, first of all, our career. Communication becomes effective when a communicator is effective enough to communicate competently, simply, clearly

sincerely and dynamically. Communication is essential for close sympathetic relationships in a society and for transformation of men, material and thoughts from one place to another. This process involves initiation reception and response that serve as feedback. Hence, communication is interactive by nature.

Today the compulsions of learning English are no longer merely political but scientific and technological. And no longer is English language of Great Britain only; it is the language required by the world for greater understanding; it is the most international of languages. English has become a global language a connecting link, a language of modern science and technologies, a language of latest sciences, like information technology and space science, a language of all competitive examinations-be they the state level, national level or international level. Whether we realize it or not we are now living in the world of information and communication technology.

The Resource person finally concludes the session with group activity and interaction with students. Sri Prasanth T M conveyed vote of thanks to the guest and gathering.

IV Session

On third day of three days orientation programme Sri. Srinath A V Senior Advocate, Mysuru Court spoke on “Professional Ethics.” Professional ethics encompasses an ethical code governing the conduct of persons engaged in the practice of law as well as persons engaged in the legal sector. All members of the legal profession have a paramount duty to the court and towards the administration of justice. This duty prevails over all other duties, especially in the circumstances where there may be a conflict of duties. It is important that legal practitioners conduct themselves with integrity, provide proper assistance to the court, and promote public confidence in the legal system. In carrying out their duties, they are required and expected to deal with other members of the legal profession with courtesy and integrity. Advocates, apart from being professionals, are also officers of the court and play a vital role in the administration of justice. Accordingly, the set of rules that govern their professional conduct arise out of the duties that they owe to the court, the client, their opponents and other advocates.

Concluding the session Dr. Deepu P, Principal conveyed vote of thanks to the guest and gathering.

V Session

In this Session Swami Shivakanthnanda Maharajji was invited as the resource person; Swamiji spoke about “Spirituality in Life.” He pointed out Spirituality is a broad concept with room for many perspectives. In general, it includes a sense of connection to something bigger than us, and it typically involves a search for meaning in life. As such, it is a universal human experience something that touches us all.

He explained that, the people may describe a spiritual experience as sacred or transcendent or simply a deep sense of aliveness and interconnectedness. Some may find that their spiritual life is intricately linked to their association with a church, temple, mosque, or synagogue. Others may pray or find comfort in a personal relationship with God or a higher power. Still others seek meaning through their connections to nature or art. Like your sense of purpose, your personal definition of spirituality may change throughout your life, adapting to your own experiences and relationships. While spirituality may incorporate elements of religion, it is generally a broader concept. Religion and spirituality is not the same thing, nor are they entirely distinct from one another. Smt. Indumathi M J conveyed vote of thanks to all.
