World day of trafficking in Person

Awareness programme on Human Trafficking through Yoga

2024-25

On 19th May 2025 on the occasion of World day of trafficking in person, awareness programme on Human Trafficking through Yoga was conducted. Sri. Stanley and Parashurama, Directors Odanadi Sevasamshthe were the resource person. On this occasion they pointed out the, Human trafficking continues to be a global threat driven by organized crime. More and more victims are being trafficked every year, across greater distances, with greater violence, for longer periods of time and for greater profit. From 2020 to 2023, there were more than 200,000 detected victims globally, which is just the tip of the iceberg. The actual number of unreported cases is believed to be significantly higher.

Organized criminal networks are driving this victimization and exploitation, using migration flows, global supply chains, legal and economic loopholes and digital platforms to facilitate cross-border trafficking on a massive scale. They profit from forced labour, sexual exploitation and coercion into criminal activities, such as online scams and drug smuggling.

Despite some progress, criminal justice responses fall short in tackling this rapidly evolving crime. To end human trafficking, law enforcement must enforce strict laws, conduct proactive investigations, strengthen cross-border cooperation, target criminal finances, and leverage technology to identify and dismantle trafficking networks.

Ensuring justice for survivors requires holding perpetrators accountable and providing a victim-centred approach to protection, support and access to justice.. Our Principal Dr. Deepu P in her presidential address she pointed out that, Human Trafficking Awareness Day is an annual event held on January 11th in the United States to raise awareness about the issue of modern-day slavery and to advocate for the rights of victims. Globally, the [World Day Against Trafficking in Persons](#) is observed on July 30th to promote and protect the rights of victims worldwide. Both days are dedicated to informing the public, preventing trafficking, and supporting survivors.

This programme was witnessed by all the students, teaching sta
